PROFILE

Lead Software Engineer with 5+ years of experience building enterprise platforms in Oil & Gas (Chevron, ExxonMobil) with C#/.NET, Angular, React and Azure. Leads a development team across Argentina, Poland and India, delivering 100% of planned business value at ~50% above assigned capacity, and built an AI agent that cut manual financial-analysis effort by ~90%. SAFe® 6 Practitioner and Microsoft AZ-204 (Azure Developer Associate) certified. Civil Engineering graduate from UTN-FRBA. C1 English.

TECH STACK

LANGUAGES	C#, TypeScript, JavaScript, Python, SQL
FRAMEWORKS & LIBRARIES	.NET / ASP.NET, Angular, React, Next.js, Entity Framework Core
CLOUD & DEVOPS	Azure, Azure DevOps, GitHub, Docker, CI/CD
DATABASES & TOOLS	SQL Server, REST APIs, Jest, Postman, Power BI
AI & AUTOMATION	Microsoft Copilot Studio, GitHub Copilot, Power Apps
METHODOLOGIES	Agile/Scrum, SAFe 6

EMPLOYMENT HISTORY

❖ Lead Software Engineer , Chevron — *March 2024 – Present*

- Technical Lead for ADAP (Automated Design Assurance Process), managing a global development team across Argentina, Poland and India, and coordinating architecture, requirements and delivery with the Product Owner, Scrum Master and stakeholders. Consistently delivered 100% of planned business value, with delivery capacity ~50% above assigned target.
- Developed and evolved QMS (Quality Management System), an enterprise platform digitizing quality processes and integrating Quality Excellence into the OEMS, supporting Chevron's ISO 9001 certification across Projects, Engineering, Wells, Supply Chain and O&M. Tool estimated at ~USD 1 billion in value; AI-assisted in-house development at USD 0.3 million over five years vs. USD 1.7 million for a vendor solution — an estimated ~USD 1.4 million in savings.
- Designed a Microsoft Copilot Studio AI agent for financial analysis automation — awarded 1st place in a CIO-judged company competition — with an estimated 90% reduction in manual effort and a potential impact equivalent to ~15 FTEs.
- Coordinated 10+ technical hiring interviews (3 new hires). Represented Chevron as employer brand ambassador at Nerdearla and the UTN job fair.
- TechShare Connect & Partnership Lead, driving partnerships, training and digital adoption initiatives such as AI Challenges and the Citizen Developer Program. PRIDE Argentina Learning Specialist — designed and launched "Fun Corner", a Power Apps learning platform that onboarded 90+ members.

Stack: Angular, TypeScript, C#, .NET 8, Azure, Azure DevOps, SQL Server, Python, Copilot Studio, GitHub Copilot, Power Apps

❖ Software Analyst Developer , Oficina Nacional de Compras (ONC) — *January 2025 – Present*

- Resolved 248 support tickets in 8 months, maintaining a 2-day average response time; automated SQL workflows via stored procedures and scheduled jobs across COMPR.AR and CONTRAT.AR, Argentina's national public procurement platforms.
- Architected new application modules following development best practices, gathering requirements directly from public agencies; conducted functional and technical analysis to ensure solution quality and stakeholder alignment.
- Driving migration of legacy ASP.NET Framework 4 system to a modern .NET 9 API with a Next.js/TypeScript frontend, improving platform scalability and long-term maintainability.

Stack: ASP.NET, .NET 9, Next.js, TypeScript, C#, SQL Server

❖ Teaching Assistant — Geotechnics , Universidad Tecnológica Nacional — *March 2025 – Present*

- Teaching Assistant for Geotechnics (4th year, Civil Engineering). Lesson planning, exam design and grading, student support in practical exercises and Q&A.

❖ **Mid-Level Software Developer** , Essen Aluminio ..... *July 2023 – March 2024*

- Development and support of the internal web platform. Shipped 6 projects including payment integrations across 5 countries (Argentina, Bolivia, Paraguay, Peru and Uruguay) and ERP connectivity via REST/SOAP APIs.
- Built sales report dashboards, commercial metrics visualization, and marketing and administration modules serving 100+ internal users.
- Reduced open backlog from 85 to 38 tickets; 96 tickets resolved in 7 months with a 4.9/5 user satisfaction score, working with Agile methodologies.

Stack: C#, ASP.NET, .NET Framework 4, JavaScript, Entity Framework Core, SQL Server

❖ **Trainee Full Stack Web Developer** , ExxonMobil ..... *March 2022 – July 2023*

- Development and support of Azure-hosted internal web applications for unconventional oil exploration. Delivered ~USD 150k in annual savings through NextPlan–Enersight integration; reduced Compressor app load times from ~1 minute to 5 seconds.
- Migrated ASP.NET MVC modules to React and TypeScript; built REST API endpoints (.NET 6 + Entity Framework) supporting bulk data editing via Excel import/export.
- Worked in global Agile/SCRUM teams across multiple time zones; used Jest and Postman for testing and CI/CD automation; migrated pipelines from Azure DevOps to GitHub.

Stack: React, TypeScript, .NET 6, C#, Microsoft Azure, GitHub, Entity Framework Core, SQL Server

EDUCATION

❖ **Civil Engineering** , Universidad Tecnológica Nacional ..... *March 2019 – July 2026*

- Civil Engineering degree completed. Final GPA: 7.51/10. Specialization in Transportation Engineering. CAD/BIM tooling: AutoCAD, Civil 3D, Revit, SketchUp, RAM Elements, MS Project.
- Events & Logistics Secretary of CONEIC 2026 (National Congress of Civil Engineering Students); built the congress' official website with React and .NET.
- 1st Prize at the AIE National Application Development Contest (Argentine Association of Structural Engineers): web application for reinforced concrete foundation design, built with TypeScript, Next.js and .NET 9.

❖ **Data Analytics Degree** , Coderhouse ..... *April 2025 – Present*

- Ongoing degree program focused on data analysis and visualization, applied statistics and predictive modeling.

Stack: Python, SQL, Power BI, Excel

❖ **Machine Learning Engineer Fellowship** , Anyone AI ..... *September 2026 – January 2027*

- Highly selective fellowship (<3% acceptance rate) to accelerate Machine Learning careers, part-time and fully remote (20 hrs/week), surrounded by a community of AI professionals and experts.

Stack: Python, SQL, Pandas, Scikit-Learn, Keras, AWS, Langchain, FastAPI, StreamLit, Docker, Hugging Face

COURSES & CERTIFICATIONS

❖ Microsoft Certified: Azure Developer Associate (AZ-204) , Microsoft ..... *Sep 2023 · 11h*

❖ SAFe® 6 Practitioner , Scaled Agile ..... *2024 · 16h*

❖ Angular: from Zero to Expert , Udemy ..... *Apr 2024 · 45h*

❖ IBM Full Stack Software Developer , IBM / Coursera ..... *Feb 2024 · 161h*

❖ Microsoft Build: .NET Challenge , Microsoft ..... *May–Jun 2023 · 28h*

❖ React: from Zero to Expert , Udemy ..... *Nov 2021 · 49h*

❖ .NET Developer — NEORIS Scholarship , UTN FRBA ..... *Oct–Dec 2021 · 96h*
